Station _____ July _____ 2014 UTC _____ Band _____ m
 (Operations by: The Huntsville Amateur Radio Club K4BFT)

W4R

July 20, 1969 "The Eagle Has Landed" at 20:18 UTC.

2014 commemorating 45 years after the landing of the "Eagle" and six hours later man walked on the moon. Special Event

ROVER station W4R (personal WA4DXP) in The Rocket City of Huntsville, AL celebrates this event and Confirms contact with:

Station _____ on July, _____ 2014, UTC _____ Band _____
 (In concert with W4A, the Huntsville ARC K4BFT at U.S. Space & Rocket Center)

Just contact us from start time July 18, 2014 @ 23:00 UTC until end on July 20, 2014 @ 23:59 UTC on one of these approximate frequencies: 3821-3826, 7189-7195, 14.242-14.247, 28.420-28.425 on SSB. We will also operate brief times in the CW and PSK parts of these bands. We need your call, name and state/country on contacts.

The Apollo 11 mission landed on the moon on July 20, 1969 @ 20:18 and six hours later man walked on the moon. We will be operating multiple transmitters and members of the HARC club K4BFT (using call W4A) on the grounds of the US Space & Rocket Center as well as a Rover station W4R moving on the grounds of the S&RC as well as around the Rocket City of Huntsville during the Friday to Sunday night time period. We do not plan to operate overnight Friday or Saturday.

Homer Hickam, author of "October Sky, The Rocket Boys" will be on premises some of the time and will operate the microphone, so you may get to talk with him. Other dignitaries of the Space Industry are being invited and you may have a QSO with them as well as members of K4BFT the HARC Club station.
